

HCA ADMISSIONS POLICY PREAMBLE:

The goal of Hawthorne Christian Academy (HCA) is to minister to the complete child. We read in Luke 2:52, "Jesus grew in wisdom and stature, and in favor with God and men."

It is that type of growth that is encouraged in Academy students. HCA desires to see its students grow in wisdom, that as their knowledge increases so will their skill in using that knowledge. HCA desires to see them grow in stature, which speaks of health and wholeness as a direct blessing from God. HCA desires to see its students grow in favor with God as they are encouraged to live lives that are pleasing to their Creator. Lastly, HCA desires to see them grow in favor with men. This does not suggest a compromise to curry favor, but rather, lives that are so exemplary that they are a blessing to those around them.

The faculty and staff support the Academy families in promoting and praying for this growth in their children. The home, the school, and the church need to work together to this end, fostering like values in these young lives, complementing each other in the raising of each child.
